Antitrust Guidelines

- All consortium meetings, whether held at a physical location or virtually, must be conducted in accordance with the relevant competition and antitrust laws of the EU Antitrust Policy of the Treaty on the Functioning of the European Union.
- As a condition of participation in these meetings, you agree that you will at all times refrain from discussing any information which is confidential to your organisation and/or which is likely to affect the commercial strategy or activities of your organisation and/or its members.
- You will not use this forum for exchanging commercially sensitive or confidential information, whether in person, or through virtual means of communication, such as chat functions.
- You are in the best position to judge what is, and what is not, commercially sensitive or confidential and so responsibility lies with you in the first place.
- You are also reminded not to discuss topics outside the previously circulated and reviewed agenda.
- Failure to follow these guidelines may bring serious consequences for you as an individual and/or your organization.
- Each participant is obligated to speak up immediately for the purpose of preventing any discussion falling outside the constraints of antitrust laws.

Outline

- Introduction and Background
- Key Challenges and Problem Statements
- Basics of Visual and Logical Design Process
- Proposed Creative and Innovative Solutions
- Impacts and Value Propositions
- Discussions and Immediate Actions

Introduction and Background

- The Olympic Pictograms, a long and fascinating story
- Historical Olympic Pictograms
- Olympic 2024 Pictograms

Challenges, Scope, Objectives and Outcomes

- Key Challenges and Problem Statement
  - Holistic approaches for effective visual designing of art
- Scope: Traditional and Emerging Design Principles
  - Classical art and industrial design concepts
  - Persistent digital design concepts
- Specific Objectives
  - Design Using Vector Graphics
    - Develop integrated and harmonised approach
    - Demonstrate a system-wide whole system approach in any operational environment and print media
    - Explore synergies between the mathematics of art and art of mathematics
  - Digital Tools
    - Manage bigdata: secured storage and open access
    - For the screen using Scalable Vector Graphics
    - For the screen and print using PostScript, TeX, LaTeX and friends
  - Capacity Building - Knowledge and Technology Transfer
- Expected Outcomes
  - Develop dynamic digital tools for screen and print media
  - Guidance for adaptation and policy making
  - Digital Tools for Holistic Design: Digital Twin, Data-driven, and Model-based solutions

Expected Impacts

- Innovation and Promotion of Mathematics of Art
  - Contribute to art design underpinning an open digital ecosystem that provides the tools and services for research and innovation
  - Contribute to the socioeconomic and technological sustainability, and projecting logical design concepts and values at home and abroad
- Utilisation of Emerging Technologies for Design and Digital Transformations
  - Preserves design ecosystem and diversity with new endeavours and digital initiatives
  - Derives benefit from the digitalisation and bigdata intelligent analytics to contribute to its advancement and promotion
- Positive Impact on Technology Integration and Societal Evolution
  - Foster art, science and technology in social inclusion, increase local and region technological capabilities
  - Increased interest in new technologies, including those applied to art
  - Bridge the gender gap and promote mathematics and computer programming to youth, especially girls.
- Skill Development, Awareness and Capacity Building
  - Provide new skills that are engaging and easy to acquire underpinning an economy generating more employment where high-skilled workforce is needed
  - Empower youth in the new emerging areas of technology innovation with deep roots in art, science and technology.
  - Creation of employment for youth, women and disadvantaged minorities
- Economic and Environmental Impacts
  - Support direct and indirect economic growth with specific focus on digital art and policy directives
  - Assessment of climate impacts including promotion of climate change awareness
